In wheat throughout the session there was a disposition to get on an even keel, but the market was quiet, though it was not at all times quiet, but there was no undertone of firmness pointing to higher trade. The market was holding, but helped along, today, September closing \$1.00 higher. Cash corn up and down, wheat, steady.

A moderate amount of buying sufficed to do this, however, closed and higher in the course of the day. The market was down again.
